12. EXTENSION OF THE DEADLINE FOR SUBMISSION OF TENDERS

The contractor may, on its own discretion, extend the deadline for submission of tenders when issuing a modification. In such cases, all rights and obligations of the contractor and the tenderer regarding the original date specified in the contract notice will be subject to the new date.

13. LATE TENDERS

All tenders received after the deadline for submission specified in these instructions will be kept by the contractor

No liability can be accepted for late delivery of tenders. Late tenders will be rejected and will not be evaluated.

14. ALTERATION AND WITHDRAWAL OF TENDERS

Tenderers may alter or withdraw their tenders by written notification prior to the above deadline. No tender may be altered after the deadline for submission. Withdrawals must be unconditional and will end all participation in the tender procedure.

Any such notification of alteration or withdrawal must be prepared and submitted in accordance with Clause 11 above, and the envelope must also be marked with ‘alteration’ or ‘withdrawal’ as appropriate.

OPENING AND EVALUATION OF TENDERS

15. OPENING OF TENDERS

The opening session should be held at least one week after the deadline for submission of tenders.

16. EVALUATION OF TENDERS

The Contractor reserves the right to ask a tenderer to clarify any part of the offer that the evaluation committee may consider necessary for the evaluation of the offer. Such requests and the responses to them must be made in writing. They may in no circumstances alter or try to change the price or content of the tender, except to correct arithmetical errors discovered by the evaluation committee when analysing tenders. The contractor reserves the right to check information submitted by the tenderer if the evaluation committee considers it necessary.

16.1 Examination of the administrative conformity of tenders

The evaluation committee will check that each tender:

- has been properly signed;
- all the elements in the administrative compliance grid are acceptable;
- has complete documentation and information;
- substantially complies with the requirements of these tender documents.

If some of the documents or information provided are not clear or sufficient, the Contractor may decide to inform the supplier in writing and set a time limit to remedy the situation.

16.2 Examination of the selection criteria

CUAMM is committed to running a fair and transparent tender process, and ensuring that all suppliers are treated and assessed equally during this tender process.

Supplier responses will be evaluated against three categories of criteria: **I. Essential Criteria, II. Financial and Economical Capability Criteria and III. Technical and Professional Capability Criteria.**

These criteria have been especially created to help CUAMM determine which supplier is able to offer the best quality and most commercially competitive solution to meet our needs and deliver the most effective programming to our beneficiaries.

I. ESSENTIAL CRITERIA

These are criteria which suppliers **must** meet in order to be successful and progress to the next round of evaluation. **If a supplier does not meet any of the Essential Criteria, it will be excluded from the tender process.** This criteria is scored as Pass or Fail and will not be evaluated against the next criteria. If some of the documents or information provided are not clear or sufficient, the contractor may decide to inform the supplier in writing and set a time limit to remedy the situation.

II. Financial and Economical Capability Criteria

These criteria will be used to evaluate if the suppliers has the technical and professional capacity to perform the contract with CUAMM. All suppliers, which pass the Essential Criteria, will be evaluated against this type of criteria by a committee of representatives from CUAMM. The suppliers have to reach a minimum score to be judged positively, if not he can't be evaluated against the next criteria. If some of the documents or information provided are not clear or sufficient, the Contractor may decide to inform the supplier in writing and set a time limit to remedy the situation.

III. Technical and Professional Capability Criteria

These criteria will be used to evaluate the supplier's ability, skill and experience in relation to the requirements of CUAMM. All suppliers, which pass the Essential Criteria, will be evaluated against this type of criteria by a committee of representatives from CUAMM. The suppliers have to reach a minimum score to be judged positively, if not he can't be evaluated against the next type of criteria. If some of the documents or information provided are not clear or sufficient, the contractor may decide to inform the supplier in writing and set a time limit to remedy the situation.

A supplier can be evaluated for the technical proposal if it passes the previous selections.

16.3 Technical evaluation

The evaluation committee will analyse the tenders' technical conformity in relation to the technical specifications, classifying them technically compliant or non-compliant. The qualification process can be considered successfully concluded when the tenderers passed even this step. **They will be entered in the pre-qualified tenderers list for the product category of Printing Material.**

16.4 Financial evaluation

If a supplier is successful in the pre-qualification process, it can be the subject of a financial offer evaluation.

Once the technical evaluation has been completed, the evaluation committee checks that the financial offers contain no arithmetical errors. Each tenderer has to submit an offer for all the items requested that they can provide.

When analysing the tender, the evaluation committee will determine the final tender price after adjusting it on the basis of Clause 17. The committee will award one by one the items requested.

16.5 Award criterion

The most economically advantageous offer is the technically compliant tender with the lowest price. To define the winner the contracting authority will use the best value for money criteria, giving a wage of 30% to technical evaluation and 70% to financial evaluation. The winner will sign a 6 months framework agreement with Cuamm, based on the price list offered that will be

fixed for the period agreed. The evaluation committee can approve one framework agreement based on delivery capacity offered by the supplier (if he can reach all the Cuamm offices in the field area), product availability and economic offer convenience.

16.6 Documentary evidence required from the successful tenderer

At any time during the procurement procedure and before the award of the contract, the contractor may request documentary evidence on compliance with the exclusion criteria set out in these instructions.

No documentary evidence of the selection criteria shall be submitted but no pre-financing will be granted.

At any time during the procurement procedure and before the award of the contract, the contractor may request documentary evidence on compliance with the exclusion criteria and selection criteria set out in these instructions. Please note that a request for evidence in no way implies that the tenderer has been successful. **All tenderers are invited to prepare in advance the documents related to the evidence, since they may be requested to provide such evidence within a short deadline.** In any event, the tenderer proposed by the evaluation committee for the award of the contract, will be requested to provide such evidence at short notice.

When requested, regarding the exclusion criteria, the tenderers should be able to provide the **documentary proof** or statements required under the law of the country in which the company (or, for consortia, each of the companies) is established, to show that it does not fall into any of the exclusion situations.

This evidence, documents or statements must be dated, no more than one year before the date of submission of the tender.

The above-mentioned documents must be submitted for every member of a joint venture/consortium, all subcontractors and every capacity providing entity.

The contractor may waive the obligation of any tenderer to submit the documentary evidence referred to above if such evidence has already been submitted for the purposes of another procurement procedure, provided that the issue date of the documents does not exceed one year and that they are still valid. In this case, the tenderer must declare on his/her honour that the documentary evidence has already been provided in a previous procurement procedure and confirm that his/her situation has not changed.

Where the documentary evidence submitted is in an official language of the European Union other than the one of the procedure, it is strongly recommended to provide a translation into the language of the procedure, in order to facilitate the evaluation of the documents.

Failure to provide valid documentary evidence at the request and within the deadline set by the Contractor shall lead to the rejection of the tender for the award of the contract, unless the tenderer can justify the failure on the grounds of material impossibility.]

17. CORRECTION OF ERRORS

Possible errors in the financial offer will be corrected by the evaluation committee as follows:

- where there is a discrepancy between amounts in figures and in words, the amount in words will prevail;
- except for lump-sum contracts, where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will prevail.

The amount stated in the tender will be adjusted by the evaluation committee in the event of error, and the tenderer will be bound by that adjusted amount.

CONTRACT AWARD

18. NOTIFICATION OF AWARD, CONTRACT CLARIFICATIONS

Prior to the expiration of the period of validity of tenders, the contractor will notify the successful tenderer, in writing, that its tender has been selected and draw its attention to any arithmetical errors corrected during the evaluation process. This notification may take the form of an invitation to clarify certain contractual questions raised therein, to which the tenderer must be prepared to reply. This clarification will be confined to issues that had no direct bearing on the choice of the successful tender. The outcome of such clarifications will be set out in a memorandum of clarifications, to be signed by both parties and incorporated into the contract.

By submitting a tender, each tenderer accepts to receive notification of the outcome of the procedure by electronic means. Such notification shall be deemed to have been received on the date upon which the contractor sends it to the electronic address referred to in the offer.

The successful tenderer will be informed in writing that its tender has been accepted (notification of award).

19. CONTRACT SIGNING

Within 30 days of receipt of the contract already signed by the contractor, the selected tenderer must sign and date the contract and return it to the contractor. On signing the contract, the successful tenderer will become the supplier/ vendor and the contract will enter into force.

If it fails to sign and return the contract within 30 days after receipt of notification, the contractor may consider the acceptance of the tender to be cancelled without prejudice to the contractor`s right to claim compensation or pursue any other remedy in respect of such failure, and the successful tenderer will have no claim whatsoever on the contractor.

20. CANCELLATION OF THE TENDER PROCEDURE

In the event of a tender procedure's cancellation, tenderers will be notified by the contractor. In case of paper submission and if the tender procedure is cancelled before the tender opening session the sealed envelopes will be returned, unopened, to the tenderers.
