For this contract award procedure, participation is open without limitations.
All supplies under this contract may originate in any country.

10. Number of tenders

No more than one tender can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting a tender). In the event that a natural or legal person submits more than one tender, all tenders in which that person has participated will be excluded.

No restrictions may be made in the number of lots a tenderer can be awarded.

The tenderer may submit a tender for one lot only, several lots or all of the lots, but only one tender per lot. Contracts will be awarded lot by lot and each lot will form a separate contract. If the tenderer is awarded more than one lot, a single contract may be concluded covering all those lots.

Any tenderer may state in its tender that it would offer a discount in the event that its tender is accepted for more than one lot.

11. Grounds for exclusion

As part of the tender, tenderers must submit a signed declaration, included in the tender form, to the effect that they are not in any of the exclusion situations listed in Section 2.4.2.1. of the practical guide. Where the tenderer intends to rely on capacity providing entities or subcontractor(s), he/she must provide the same declaration signed by this/these entity(ies).

SELECTION AND AWARD CRITERIA

¹ Please note that the EU Official Journal contains the official list of entities subject to restrictive measures and, in case of conflict, it prevails over the list of the [EU Sanctions Map](#).

15. Selection criteria

Capacity-providing entities

An economic operator (i.e. candidate or tenderer) may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links it has with them. If the economic operator relies on other entities, it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. **Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document.** Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract

The following selection criteria will be applied to the tenderers. **In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole if not specified otherwise.** The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The tenderer shall not use previous experience which caused breach of contract and termination by a contracting authority as a reference for selection criteria.

The selection criteria for each tenderer are as follows:

- 1) **Economic and financial capacity of the tenderer** (based on item 3 of the tender form). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be **the last two financial years for which accounts have been closed.** The average turnover (sales) of the participant must be at least 2,000,000.00 ETB.
- 2) **Professional capacity of the tenderer** (based on items 4 of the tender form). The reference period which will be taken into account will be **the last two years preceding the submission deadline.**
- 3) **Technical capacity of tenderer** (based on items 5 and 6 of the tender form). The reference period which will be taken into account will be the last two years preceding the submission deadline.

This means that the contract the tenderer refers to could have been implemented at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to supply contracts completed within the reference period (although started earlier) or to supply contracts partially implemented during, but not yet completed within the reference period. Only the part completed during the reference period will be taken into consideration. This part will have to be supported by documentary evidence (approval of report or deliverable, proof of payment, statement or certificate from the entity which awarded the contract) also detailing its value. If a tenderer has implemented the supply contract in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence (such as consortium agreement and bank transfers between consortium members), together with a description of the nature of the supplies provided.

16. Award criteria

Award Criteria The contract will be awarded based on the **Best Price-Quality Ratio**, weighted as follows:

- **Quality:** 80%
- **Price:** 20%

Minimum Eligibility Requirement: To be considered for evaluation, tenderers must submit a bid covering at least **50% of the total items** listed in the technical specifications. Bids failing to meet this minimum threshold will be disqualified.
